

Shoot Bolt Locking System for PVCu Casements

Shootbolt espagnolettes for casement windows incorporate all the benefits of safety and security expected of modern window technology in today's environment. Our shootbolt espagnolettes have been vigorously tested for security and performance above the requirements of industry standards. For performance they have been endurance tested to 40,000 operations and have been salt spray tested for 500 hours by the BBA. BBA assessment report No. 1469

- Profile designated striker plates with a Night Vent position.
- Mushroom and shootbolt striker plates interlock for maximum security.
- Shootbolt striker plates are designed to act as anti jemmy devices.
- Tested to 7.4Kn, more than double the current requirements of BS7950:1997.
